**COMPREHENSION PASSAGE**

   a. Find part B in your textbook. ✓
      • You're going to read the next story about Linda and Kathy. First you'll read the information passage. It gives some facts about palm trees.
   b. Everybody, touch the title. ✓
      • (Call on a student to read the title.) Facts About Palm Trees.
      • Everybody, what's the title? (Signal.) Facts About Palm Trees.
   c. (Call on individual students to read the passage, each student reading two or three sentences at a time.)

**Facts About Palm Trees**

Today's story tells about palm trees. Here are facts about palm trees:

Palm trees grow in places that are very warm.

- Where do they grow? (Call on a student. Idea: In places that are very warm.)
Palm trees cannot live in places that get cold.

- Where can’t they live? (Call on a student. Idea: In places that get cold.)

Palm trees have very small roots.

- Everybody, say that fact. (Signal.) Palm trees have very small roots.

The branches of palm trees are called fronds.

- Everybody, what are they called? (Signal.) Fronds.

Some palm trees grow dates. Some palm trees grow coconuts.

- Name two things that grow on different palm trees. (Call on a student.) [Dates and coconuts.]
- The picture shows a coconut palm tree. The parts are labeled.
- Everybody, touch the fronds of the tree. ✓
- Touch the coconuts. ✓
- Touch the trunk. ✓
- Touch the roots. ✓
- Those are little roots.

Bananas grow on plants that look something like palm trees. But banana plants are not trees.

- Remember, palm trees grow dates and coconuts. Bananas grow on plants that look something like palm trees, but they’re not really trees.

**STORY READING**

a. Find part C in your textbook. ✓

- The error limit for this story is 11. Read carefully.

b. Everybody, touch the title. ✓

- (Call on a student to read the title.) [Alone on an Island.]
- Everybody, what’s the title? (Signal.) Alone on an Island.
- (Call on individual students to read the story, each student reading two or three sentences at a time. Ask questions marked 1.)
- (Correct errors: Tell the word. Direct the students to reread the sentence.)
- (If the group makes more than 11 errors, direct the students to reread the story.)

b. (After the group has read the selection making no more than 11 errors, read the story to the students and ask questions marked 2.)

**Alone on an Island**

1. Everybody, where are Linda and Kathy going to be in this story? (Signal.) On an island.

1. If they’re alone on the island, how many other people are on that island? (Call on a student. Idea: None.)

Linda and Kathy walked along the beach. It was very dark, so they walked close to the waves. The waves washed up and swirled water around the girls’ ankles. Then the waves fell back, pulling sand from under the girls’ feet.

2. Did you ever stand in the waves and feel them pull sand from under your feet? (Call on a student.)
2. It said the water swirled around their ankles. Everybody, use your fingers to show me how the water would swirl around their ankles. ✓
2. The girls were walking along the shore. Why didn’t they just walk anywhere instead of walking along the shore? (Call on a student. Ideas: Because it was dark and they wouldn’t be able to see where they were going; they’d get lost.)
Suddenly, Linda stepped into some very cold water, much colder than the water in the ocean. That cold water was running into the ocean. The girls were standing in a stream. Linda bent down and tasted the water.

1. Everybody, would that water taste salty if it was from a stream? (Signal.) No.

It was fresh water. "Kathy! Water!" she announced.

Kathy and Linda drank water until they couldn't drink any more.

Then they found a place near the palm trees where they could sleep. Linda didn't know how long she slept. But when she woke up it was morning. A strange sound woke her: "Caw chee, caw chee."

1. What do you think that could be? (Call on a student. Ideas: A bird, an animal, etc.)

There were many large birds around the girls and many trees. Some trees were palm trees, with trunks that have shelves like a ladder.

2. Everybody, touch one of the palm trees in the picture. ✔

The birds were different colors. A few were white, many were red and yellow.

2. Everybody, what color were a few of the birds? (Signal.) White.
2. What colors were many of the other birds? (Signal.) Red and yellow.

Small black birds with yellow beaks made most of the noise. "I think those are myna birds," Linda said. "They're very smart."

"I'm hungry," Kathy said.

2. Everybody, what's the name of the black birds? (Signal.) Myna birds.

2. Kathy wasn't interested in those birds. What was she interested in? (Call on a student. Idea: Food.)

Linda stood up and looked around. She could see a beach of bright sand. She could see a blue sky and fluffy white clouds. She could see the ocean, stretching out until it met the sky. And she could see the crate, about twenty yards from the water. But she could not see a house, a boat, or any person other than her sister.

2. I'm going to read that part. Close your eyes and get a picture of the place that Linda and Kathy were in.

Linda stood up and looked around. She could see a beach of bright sand. She could see a blue sky and fluffy white clouds. She could see the ocean, stretching out until it met the sky. And she could see the crate, about twenty yards from the water. But she could not see a house, a boat, or any person other than her sister.

2. Everybody, is the place they were in pretty? (Signal.) Yes.
2. Were the girls in a place where other people lived? (Signal.) No.

Linda and Kathy looked around for something to eat. The girls found a plant that had large bunches of bananas growing on it.

2. You can see the bananas in the picture. They look like they're growing upside down.

After the girls ate all the bananas they could eat, Linda said, "Let's walk down the beach and see if we can find out where we are."

"My feet hurt," Kathy said.

2. Why would her feet hurt? (Call on a student. Idea: From the salt water.)

"We'll walk slowly," Linda said. So the girls started walking along the beach. They didn't go into the trees beyond the beach, because they were afraid that they would get lost. They walked and walked. They walked until the sun was high in the
sky. Linda said, "It must be around noon time." But they did not see a house or a boat or any people.
They walked and walked until they came to a large rock. Linda climbed up on the rock and looked around. She saw footprints on the beach in front of her.

1. Do you think somebody else is on the island? (Call on a student. Student preference.)

The girls ran over to the footprints. Kathy said, "Other people are here. I see lots of footprints."

Linda looked at the footprints. She noticed a crate near the edge of the water. Linda said, "Those are our footprints. We have been walking in a circle. That means we're on an island. We walked all the way around the island."

Kathy started to cry.

Linda said, "Don't cry. Everything will be all right."

Linda didn't cry, but she felt like crying, too. She and her sister were all alone on an island. There was nothing on that island but trees and sand and a stream. How would they let anybody know where they were? How would they ever get off the island?

1. Go back to the beginning of the story. Follow along while I read.

2. That shows the direction they went. They walked until they came to the stream. Touch the stream. ✓

2. After they crossed the stream, they came to a grove where they slept. It's marked with the letter S. Touch that grove. ✓

- On the edge of that grove are banana plants. That's where the girls ate in the morning. Then the girls continued walking all the way around the island until they spotted footprints.

2. Everybody, show me where Linda was when she saw the footprints and the crate. (Students touch large rock.) ✓
